CLASS PROPHECY

The future is a mystery to all of us. Where will the members of this class be ten years from now? Maybe the following prophecies will answer some questions.

Ten years from now John DeZinna will be the youngest dean in the history of Yale University. Maybe he can compare notes with Diane DiLeo, the dean of Radcliffe. David Boddie and Thomas Fetzner will get to Harvard - as the janitors.

Of course the sports world will be familiar with the exploits of Richard Congalton, the star player on the Harlem Globetrotters. And what about Lois Bertrand? How can we forget her world's record for running the 80 yard dash in five minutes. Timothy McCorkle will enter Sport's World Hall of Fame when he becomes heavyweight champion of the world by defeating his opponent, John Colabello. Walter Noonan will be famous for his pole-vaulting record of three feet, two inches.

Naturally, Claudia Michalak will run away with the title "Miss America, 1971." Billy LaNicca will become "Mr. America."

Richard Lai will astound Congress with his amazing oratory. Richard Boddie will enter politics also. He is going to be President. His staff includes Vice-President Odile Quinn, Secretary of State, Debbie Ronan, Secretary of Commerce, Maureen Rafuse, Secretary of Labor, Pat Beste, Secretary of Defense, Maryellen DiPetto, who will buy mini skirts and bell bottom slacks for all the members of the Armed Forces, and Treasurer, Joan Doozan, who will finance Keith Lawrence's takeover as the King of Ireland, with his assistants, Jill Dougherty and Nora Connors.

Lorraine Vizza is going to make great contributions to humanity as a renowned mathematician. Maybe she can help Andrea Benack. Andrea is in her fourth year of college and she is still a freshman.

We all knew Barbara Norcia would become a great artist and we were right. You can see her work the next time you are in New York City. Her billboards are everywhere. And while you're there you can visit the Mayor, Billy Bruderman, and the head of the Board of Education, Denise D'Ercole.

Laureen Vizza and Pat Boisi will be the first astronauts on Mars. They will promptly open a discoteque on it, having arrived there on a rocket designed by Sean Downey.

Two of our classmates are going into medicine. Timmy Nummy will become a world famous brain surgeon. His first patients will be Mark Henrich and Mark Johnston. Robert Gull will be known as a veterinarian. His first patients will be Robert Rich and Larry Joyce.

Perhaps the most surprising prophecy is that for Adam Grudzinski. Adam will become the head writer for Laugh-In. Diane Ring will work on Sermonette, and good old Joe Martinez is the future president of Ching Family Foods.

FAREWELL AND THANKS

In the last hours of our grammar school life, the students of 8-1 remember their numerous teachers and would like to give their thanks to them in this letter. To Mr. Casey go our most sincere thanks for his work with us in Math, help in the fields as coach and friend and for his constant support. We are also obligated to Miss McGuire for her Reading program and classes which helped us so much.

We thank Sister Patricia for her excellent Social Studies classes and constant work during Graduation practice. The students would like to thank their homeroom and English teacher, Sister Mary Vincentia for her constant work with us in order to make us into "ladies and gentlemen".

To these teachers and many more, we give our sincere thanks and wish them farewell.

GOOD-BYE TO SAINT MARY'S

We, the graduating class of 1969, will bid farewell to St. Mary's and all the memories it holds for us, on June 15th, 1969. Monsignor Ryan and Sister Mary Robertine and what they have done for our school will not be forgotten. What Sister Mary Vincentia has done to prepare us for High School is greatly appreciated. We would like to thank Mr. Casey for the Math he taught us which will help us in the following years. We have gratitude for Miss McGuire for helping us improve our reading and comprehension.

This class will remember Sister Patricia's skillful teaching in Social Studies and hope to profit by it. We give thanks too, to Sister Mary DeSales and Sister Mary Amelia for their help in the past. We give thanks and bid farewell to Mr. Martillo and also Sister Beata for helping us with our graduation.

We will never forget the years we spent at St. Mary's.

FAREWELL TO ST. MARY'S

Most of us have been in St. Mary's since kindergarten. We have had nine years of St. Mary's. Nine teachers have tried, some successful, some unsuccessful, to tame us. Over the years we have tried to get rid of as many teachers as possible. Our first and only success was poor Miss Fletcher, driven away by the 7-1 class (now 8-1).

When we have been corrected, we always listened, and then did it again. Most of our early trouble stemmed from stupidity, but later trouble was caused by hatred. So very sadly we give St. Mary's a fond (ahem) farewell.

We will surely miss Sister Mary Vincentia and although we have had to be corrected, we still go on being disobedient. Seventh graders beware, fear for your lives.

AN EDITORIAL

The graduating class of 8-1 would like to thank the numerous teachers we have had through the years for their appreciated teaching of subjects. The class would like to give their thanks to all those teachers in extra curricular activities especially Sister Beata for her musical help with our graduation and general music help, Sister Barbara and Sister Beata for their assistance in the band, Sister Kathleen for her help in twirling, Sister Ellen for her help with the altar boys, Sister Celeste for her assistance in cheerleading.

Our thanks are also given to Monsignor Ryan and Father Minogue, and all the other priests for making this such a great parish.

CLASS PROPHECY

I am a 25 year old housewife, the year is 1987. I am contently listening to the radio as I do the dishes. As I listen to the speaker, I realize his voice is very familiar. Yes, of course, the disc jockey is an old classmate, Richard Lai. The next song played was by a famous rock group, "Andrea and the Amos." Now an advertisement for a best-seller, "Life in the Priesthood" by a former class-mate, John DeZinna. The famous designer, Maryeller tells what's new in fashion. And my good friends David Boddie and Patty Beste are a team of husband and wife discoverers. Sister Lois, the first nun to be a gym teacher, has made herself world-wide known. Well, now I am left with many happy memories as I continue my housework.

ADVICE TO THE 7TH GRADERS

Well kids, you made it this far, one more year isn't gonna hurt. Don't forget to do your homework and DON'T leave it home. Don't try any excuses, Sister's heard all of them, already. And I doubt you could think of any new ones because Laureen Vizxa's used them already.

Try to get in all your book reports in. I know it's hard, but it can be done. What ever you do -- keep your mouth shut at all times and maybe you won't have to pay any fines, because there are plenty of them. When you're told to do something, do it. Eighth Grade isn't that bad -- after all we made it through. Remember-be cooperative and appreciative. Pat Boisi

CLASS OF 1969 ACCOMPLISHMENTS

The class of 1969 has gained a reputation. We hope shall never be surpassed, for teachers and schools sake. We have made many great achievements in track and field in our eighth year. We broke almost every record.

In the Sisters of Mercy Auxillary Drive, our class, through hard work of cake sales and auctions, strove to achieve our 200% and a day off from school.

Our girls softball team will be one that will stand out in the years to come with their season of '69 undefeated.

Our twirlers have stood out all over the Island winning trophies and medals in every competition they have entered due to the fine coaching of Sister Kathleen.

The cheerleaders have been a great influence to the ball teams. They helped us when we were on loosing streaks. The cheerleaders were a credit to our school due to the hard work of Sister Celeste.

And Last, but not least, our Senior Band has entertained and competed on many different occasions, and is probably the best group of musicians St. Mary's has ever had. We would like also to thank Sister Beata and Sister Barbara for their hard work in this trying year of band.

LEGACY TO THE SEVENTH GRADERS

DEAR SEVENTH GRADERS, you are entering a very serious year in September of 1969. This eighth grade year will not only determine the high school you are going to attend, but will give you the necessary preparations for it. Remember to study hard and learn your lessons well, for these habits are the two keys which open the door of success. Respect your teachers always - they are the guiding stars in life and never lose your school spirit. School is the greatest and may you always be a credit to it.

Eighth Grade will be fun besides learning just like it was for us. We had band, sports, and glee club, not to exclude the extra conversations in the back of the room. We had picnics, baseball games, with trips every few months. The most important message I would like to leave behind, though, is that St. Mary's is the greatest and the greatest it will always be.
