Last Will and Testament

Sr. Mary Lourdine - Kindergarten- To you we leave one broken lamp, seven squashed crayons, a broken horse, and the Kindergarten Room ( now the Science Room) with its door shut, never to be used as a Kindergarten again. Also our protests of never receiving our graduation diplomas.

Sr. Mary Deborah- First Grade- To you we leave your bottom desk drawer broken from your demand that we sit in it, the remains of our first books, our learning that  $1+1+1=3$ , the memory of your "Yardstick", and twelve pairs of angel wings from our first Christmas Play.

Sr. Mary Sean- Second Grade- To you we leave ourselves marching along with the band, a star beside each of our names on the reading chart, one destroyed eraser along with three pieces of chalk, and our handwriting improving with time.

Sr. Mary Amelia- Third Grade- To you we leave our first pens, division and multiplication finally understood, and thanks for letting our desks get a little bigger.

Mrs. Roden- Fourth Grade- To you we leave a timetable clock, a new seat pillow, and a pink velvet hanger, an empty box of tissues, thirty-four holy cards, and our timetables memorized.

Sr. Mary Winifred- Fifth Grade\* To you we leave fractions remarkably understood, the thought of ourselves as "The Thing" because we finally reached the big corridor, and our good-bye cheer unforgotten

Sr. Mary Sales-Sixth Grade-- To you we leave a pair of boxed ears, four lazy monkeys, and the thought of finally telling you that when you left the room, someone would be on guard looking out of the classroom window, while we all turned on our radio. When the person on guard saw you coming back we'd shut them off and take out a book.

Miss McGuire-Reading Seventh and Eighth Grade and Art. To you we leave three sets, two McCall's Crabs, an extension to the reading machine, 3 water color scenes, 12 sketches, a jar for our water and our final honest word that the reading program has helped us.

Sr. Patricia-Social Studies Seventh and Eighth Grade--To you we leave a new set of maps, a Farmers Almanac of 1970-1971. Everyone up till, and our conscience free since we are now telling you that our History took up more room than any other book in our desk.

Mr. Casey-Homeroom Grade SEVENTH, Math Seven and Eight--To you we leave an undecided member of the Dating Game, everyone dancing at our Christmas Party, and our thanks for making our last years in St. Mary's happy ones.

Sr. Mary Vincentia-English Grade Seven and Eight, Homeroom Grade Eight--To you we leave the remembrance of seeing Romeo and Juliet, thirty-four memories good and bad, 500 spitballs, our co-op results, a little extra money for the missions, a bucket of tears and the hope of having our responsibility greater than what it was when we started school in September.

Mrs. Miceli- Science Seventh Grade- To you we leave our Review workbooks, four atoms, 2 suspensions, one solution, and ourselves awake.

Mrs. DEFRANCISI-Eighth Grade- To you we leave a heart, brain, lung, along with a skinned rabbit, a picture of a stratus cloud, and "Bio" almost understood.

Mrs. Hughes- Science- To you we leave seven destroyed science books, five invertebrates, four cells, and two plants.

Mrs. Dercole-art- To you we leave alot of paste on four desks, a dab on seven desks, ten airborne crayons, and our red rubber ball roalong down the isles.

Mr. Bedell-GYM- To you we leave four broken scooters, one damaged mat and our gym uniforms fitting better than you last saw them on us.

Mr. Martillo- GYM- To you we leave four gym uniforms, two pairs of white socks, seven pairs of sneakers, the whole class "H ERE", a new set of boys to put the chairs away, and the girls' regrets for never finishing to teach them how to play football.

HOW I FEEL AB OUT LEAVING SAINT MARY'S

(Terrible!!) Thats the only word that I can say about le ving this great school. When I was in kindergarten I thought the eighth gradewas terribly hard and scarey. But now that I'm here I love it, and I don't want to leave our eighth grade classroom, and all our teachers. As we progressed in grades we were allowed more privileges in taking part in school activities and everthing became more intresting. Many times I stop and wonder about how others feel about leaving St. Mary's and here is what they said:

- 1.I like St. Mary's very much, but I think high school will be a new experience.
- 2.It's a place I'll really miss.
- 3.St.Mary's has done a lot for me, and I'll never forget it.

These are just three of the thirty-four students in my class who have given me their opinions on leaving. I'm sure that on the whole, everyone is sorry to leave the school at St. Mary's, Roslyn in the new high school which they have chosen.

#### Farewell And Thanks

As we leave St. Mary's we would all like to thank everyone who made it possible for us to graduate. We would like to thank Monsignor Ryan, our former pastor, and Father Minogue, our present pastor, through all the years we have been here. I know it will be hard for us to leave this school, because it has so many memories, we'll all cherish. Again I thank all the teachers and especially Sr. Mary Vincentia, our eighth grade teacher, and Sr. Mary Robertine, our principal, for making it possible for us to graduate.

Pat Conway and Gloria Leatham

It seems our class is finished now,  
We'll no more laugh as one.  
After nine short years, please tell me how  
Our days together are done.

But no! This couldn't be the end  
Our friendship is too strong.  
I know that deep within each heart

Our class won't next for long.

8<sup>1</sup> Coming

We were all so happy entering eighth grade, knowing that it would be our last year at St. Mary's and knowing, that we were finally the "big shots" in the school. But that feeling didn't last very long because one of the first things we had to face was the Co-op exam and that was pretty scary.

Still, looking ahead to all the activities, we know it was going to be our busiest year and the most exciting one. There are so many things to do in your last year that it doesn't seem possible to get it all done. There are practices for everything, the Christmas play, Folk Masses, Missions Cake sales, all the sports and lots and lots of homework.

The best thing about entering eighth grade is that you know you still have one more year to be with all your friends, sisters and teachers who have made St. Mary's a great school.

### 8--1 Going

Leaving 8-1 will be very sad and hard, because a good part of our lives during the past nine years have been spent with in the walls of St. Marys. We have joined our lives in study, religious event, athletics and good hard work for various activities and projects together ,we have learned how to work together and get along with others,,to think things out for ourselves. We have made many friends throughout the years who will not be going with us to our different high schools. Though we will make new friends, we will miss the friends, sisters and teachers we leave behind. We will take many pleasant memories with us and hope we leave 8-1 with sadness and regrets but look forward to the challenge, joy, and knowledge of high school. We hope the classes that follow us will have as much to remember as we do.

Diane Grella.

## 7' WARNING

This warning is just to provide you with a learn-it-yourself kit over the summer. These rules are not hard to follow, but easy to forget.

- 1- Walk up the side aisle. Not across the front of the room.
- 2- Have a placemat for lunch...a napkin will not do.
- 3- Keep the presses closed.
- 4- Girls have a tie on, or you will get a new one every time.
- 5- Girls and boys - gym bags are not to be brought to the classroom.
- 6- Girls, this is not a beauty salon. Leave your brushes home.
- 7- And another thing, girls, don't take so long in the lavatory.
- 8- And last but not least, have your desks on base and pick up any papers on the floor.

These 8 simple rules are easy to get used to, but remember, this is just a warning.

Michelle Mallon and Meg Turecamo

Graduation

There comes a time when one must say goodbye to all their friends, and go on into High School. There is a lot of parting sorrow, where friends must go, even the best of friends are separated. There are parties of course, But that's not the same, because everyone is there.

Then there is High School, a strange place to all of us. It's much different than Grammar school. More work, no time to waste. Just when you think you've made a lot of friends you have to graduate. There is always going to be sorrow, we can't stop that but, look on the other side and we'll make new friends again and have some more great times
